Biography

Joe is a Senior in Wolf's Advisory Group and serves as the Lead Penetration Tester on the Firm's Information Technology (IT) Audit Team, where he's responsible for coordinating and conducting penetration testing services for clients in a variety of industries, including financial, healthcare, and software. His expertise consists of internal and external network penetration testing, social engineering, vulnerability assessments, Microsoft Windows security and management audits, and general information security and controls. Joe has over two years of experience conducting penetration testing audits and is pursuing ethical hacking certifications from industry-recognized organizations like the SANS Institute and Offensive Security.

Involvement

- SANS Institute, GIAC Advisory Board
